TORREFIED

PREMIUM EXTERIOR WOOD DOORS

Unlimited Possibilities. Unlimited Designs.

The Torrefied Series is available in each of Lemieux's 10,000+ design options - and our 4/0 maximum widths and 8/0 heights are fully guaranteed, with available matching exterior jambs, brickmoulding and T-astragals.

A 20-Year Warranty That's as Durable as Time

Every Torrefied Series exterior wood door carries a 20-year guarantee against warping, twisting, rotting or delamination.

Resists Warping, Twisting, Rotting, and Delamination.

Tested to The Extreme

We stop at nothing to design a better door. In fact, we have been subjecting our test doors to a daily deluge of abuse since October 2010 - and we're still waiting for the twisting, warping or rotting to show.

It's Over With Overhangs

This may be the first time a door of comparable quality can be installed without the usual overhang requirements. A door built to face up to the elements; direct sunlight and extreme heat and cold. What's more it can be stained or painted in dark tints. For the 20-year warranty to be honored, all six sides of the door must be sealed and maintained.

Chemical Free Tetchnology

Torrefaction is an all-natural green process whereby wood is heated over time in order to eliminate its tendency to rot. It also makes wood far more structurally stable, and highly resistant to heat, cold, and moisture.

MASONITE®

Open to extraordinary.

Tested to The Extreme!

We stop at nothing to design a better door. In fact, we been subjecting one of our doors to a daily deluge of abuse since October 2010 – and we're still waiting for the twisting, warping or rotting to show. In addition to our stringent test chamber trials we let Forintek, the world's leading wood component testing lab, take their best shot. We'd be happy to share their remarkable test results with you!

The Masonite Torrefied Series.

Anything else is simply settling for second best.
